CAREER OBJECTIVE

I am a dedicated and aspiring Full Stack Web Developer with a passion for problem-solving and continuous learning. My career goal is to transition into AI development, which I plan to start exploring soon. My key strengths include honesty, accountability, and reliability. Even when faced with unfamiliar tasks, I am resourceful and determined to find solutions. I am a fast learner and thrive in challenging environments, making me a valuable team player.

EXPERIENCE

Fresher

- Although I am a fresher, I have gained extensive experience through various projects. These include:
 - Payverse:** A transaction website with over 5 routes, featuring a user-friendly interface, backend validation using Zod, and a technology stack including React.js, Recoil, Node.js, Express.js, and MongoDB.
 - Blogging Website:** A platform allowing users to create, read, and share blog posts with a clean interface and a robust backend.
 - Real-Time Chat Application:** A chat application supporting multiple users, real-time messaging, and integration with a NoSQL database for message storage.
 - Portfolio Website:** A personal portfolio showcasing my skills and projects, designed with Next.js, Lottie-react, and Framer Motion for a unique and responsive experience.
 - Upcoming Projects:**
 - Multi-App Work Delegation Website
 - Cryptocurrency Exchange Platform

FUTURE GOALS

Devops

- Enhancing skills in continuous integration/continuous deployment (CI/CD), infrastructure as code, and automated workflows.

Artificial Intelligence (AI)

Exploring machine learning, deep learning, and AI-driven solutions to stay at the forefront of technology.
